VMUG Board

The VMUG Board of Directors is responsible for setting the strategy of the VMUG organization and working closely with VMware to identify areas for growth and opportunity. The Board consists of ten VMUG and user members and two VMware representatives. Collectively they bring a diversity of experiences, geographic representation, and company affiliation that gives VMUG a very broad view of the technology and its applications.

2011 VMUG Board of Directors

Name	Position	Local VMUG
Marassi Maluf	President	Atlanta, Georgia, United States
